

# Fusion Update April 2023

Firstly, our Brekky Clubs have been continuing as normal and continue to impact young people in our local high schools each and every week with the love of Jesus. You'll hear me talk about Brekky Clubs often, because I really do believe that they are the backbone of what we do. In Brekky Clubs we display the selfless love of Jesus to young people by showing up in their world and giving generously of our resources and time. We get to model, at least in part, how Jesus gives so freely of himself for us. And we're not waiting for these young people to come to church to show them this, we are right there in their school grounds.

Secondly, we had the Fusion NSW Pilgrimage travel through last week on their way around the state. We didn't have any young people from the Blue Mountains go on the Pilgrimage this year, but young people from Sydney South and Western Sydney headed off on Monday 17 April to explore the Traditional Lands of NSW - starting with the Blue Mountains! After a lunch at Wentworth Falls Lake, we set off around Katoomba with guide Hayden Stephens. Hayden told us all about the long history of the mountains and the stories of the region, including the story of the three sisters told through the excellent acting skills of our young people and leaders. We set up camp in Lawson, and after dinner headed off on a night-time bush walk to visit a couple of colonies of glow worms! It was a day of getting to know each other, getting to know Darug land and its peoples, and getting started on a pretty significant journey together.

Thirdly, we continue to raise funds for our programs through regular Bunnings BBQs! We had one last weekend and really enjoyed the chance to tell people about what we do!

Thanks and God bless,

Annelise
